8	80	\$16,000
10	115	\$23,000
12	215	\$43,000

|

For enlargement of a Water Service, a connection fee is charged only for the difference between the connection fee for the new meter and the connection fee for the replaced meter. If two 4-inch meters are used for an 8-inch Water Service Pipe, two 4-inch connection fees are charged. If another water meter such as irrigation Water Meter is downstream of the main domestic Water Meter (downstream meter's water flows through the main domestic Water Meter), no connection fee is charged for the downstream water meter(s). A connection fee is not charged for fire service including the detector check Water Meter. When a combination fire and domestic meter is installed, the water connection fee is charged based upon the size of the domestic meter.

In accordance with N.J.S.A 40:14B-22.3 connection fees for public housing authorities and non-profit organizations building affordable housing projects shall be fifty percent (50%) of the rates set forth hereinabove.
