*****SEWER REPLACEMENT*****

Dear Residents/Businesses:

This letter is to inform you within the next couple weeks the JCMUA's Contractor (J.F. Creamer & Son) will initiate a new sewer main installation on **York Street between Colgate Street & Brunswick Street**. This work will take approximately 6 weeks, weather permitting. In case of bad weather, work will be re-scheduled for the following day, excluding weekends & holidays.

Work will transpire during normal business hours, unless emergency situations require longer to return thoroughway to safe passage conditions. At this time, we ask that all vehicles be removed from the street while work is transpiring. Street parking is allowed after work completion each evening. Work duration of 6 weeks is predicted on no unforeseeable complications & subject to change for each block. **No loss of service will transpire, without additional notification.**

While we are aware & apologize for the temporary inconvenience caused by the activities listed herein, this project only serves to improve the **York Street between Colgate Street & Brunswick Street** infrastructure. The inconvenience is temporary, the improvements long-lasting.

We thank you for your understanding & can assure you that we will make all efforts necessary to make the project run smooth & efficiently. If you have any concerns, please do not hesitate to call the JCMUA's office at (201) 432-1150 & ask for Rich Haytas, Brittany Kelly & Antonio Cunha.
